

To allow construction equipment to access the Westgate Parking Lot it is necessary to create a Truck Access Drive at the top of Lot L/Westgate as shown above.

This access road will be in use for the next 6 months. During this time the only change to the lot shown above will be the elimination of the parking spaces in the area shaded with the blue boxes. Traffic will still flow within the lot as shown with the red double sided arrows.

It is imperative that you do not park in the Access Drive. Any car that is parked in this zone will be towed without warning and at the expense of the driver.
